Une expérience reconnue A proven record

Notre gamme / Our range

The image consists of four separate panels, each representing a different product line from Omia. Each panel features the Omia logo at the top, followed by a brief description in French and English, and a grid of small images showing various applications of the equipment. The panels are separated by vertical orange lines.

- Air shot blasting installations:** Includes images of a large industrial building and a worker inside a booth.
- Powdering installations:** Shows a series of industrial booths and chambers.
- Monoblock ovens and tunnels:** Displays large blue industrial ovens and tunnels.
- Industrial painting booths:** Features images of a booth interior and a completed painting area.

Notre service après-vente / Our after-sales department

This section highlights Omia's national service network. It features a map of France with points of service connected by lines, a large white arrow pointing right, and a row of five white cars, each labeled 'omia SAV'. The text 'Couverture nationale' and '35 techniciens régionalisés à votre service' is displayed above the cars.
